Forecast for Friday 11 Jun 2021

Weather: Cloudy overnight with occasional rain, heaviest across western peaks. A rather cloudy early to mid-morning with patchy rain, perhaps turning heavier at times across western ranges. Becoming brighter from late morning and through the rest of the day, with rain dwindling to only a few isolated showers from early afternoon, these largely focused across the far west.

Chance of cloud free mountain/hill tops above 800m: 60% increasing 90% from early afternoon.

Visibility: Good or very good, lowering moderate or poor in early rain and briefly in later showers, also very poor in hill fog with bases initially extensive from 450m in the far west, otherwise broken from 600-900m becoming well scattered from early afternoon.

Met Office Aberdeen Meteorologist's View
Buffeting at height most widespread early to mid-morning with gusts reaching 50-55mph at times. Strong afternoon sunshine bringing risk of sunburn in exposure.

Forecast for Saturday 12 Jun 2021
Weather: Occasional sunny spells and only a few isolated light showers through much of the day, these mainly across western parts, however temperatures feeling cooler than off late, with risk showers wintry at first across highest peaks, coupled with summit gales to bring a significant wind chill. Cloud gradually building from the west from late afternoon, bringing some patchy rain for the evening.

Maximum wind: West initially mean 30mph with gusts reaching 40-45mph over most exposed ridges and summits, easing a touch from mid-morning.

Chance of cloud free mountain/hill tops above 800m: 95% lowering during evening to 20% in west and 40% in east.

Visibility: Good or very good, lowering moderate or poor briefly in showers, more persistently in later patchy rain, also very poor in hill fog, chiefly during the evening as bases become extensive from 450m in the far west and broken from 700m in east.

Temperature: **Glens:** Plus 8 Celsius rising 16 Celsius during the afternoon
At 800m: Plus 3 Celsius rising 5 Celsius from late morning
Freezing level: 1300m rising 1800m
